

Guidance to residents for satellite mini dish installation

If you wish to erect a satellite mini dish at your property please complete the attached application form and return it to the Estate Office.

We will confirm to you in writing if the proposed location is acceptable.

Information

Satellite mini dishes will need a clear line of sight to the satellites they are receiving. Most satellites transmitting to the UK are high above the horizon. For this reason satellite mini dishes can be positioned at low level.

Your equipment supplier should guide you on this. For example, to receive Sky digital your satellite mini dish will need to point towards the Astra satellite. It is held in a stationary orbit found due east at an inclined angle of approximately 18° from horizontal.

You should ensure that your satellite mini dish cannot be seen from roads and other public spaces. Dishes should be installed:

- as unobtrusively as possible on rear or side elevations
- at ground level or below 2 metres where possible
- on garages, sheds or other outbuildings with a suitable orientation
- on a fence or washing line post

You could consider shared dish schemes with other local residents using one communal mini dish to feed multiple dwellings.

Only one mini dish or aerial per property is permitted.

All old equipment should be removed when new equipment is fitted.

Listed buildings or properties within Conservation Areas

If you live in a Listed Building or in one of the Conservation Areas you should also obtain permission separately from Birmingham City Council.

Application

for erection of an external satellite mini dish

1

Address of Property

Name of Applicant

Day time telephone number

2

Which satellite(s) do you wish to receive?

Which language channel(s) do you wish to receive?

Description of where the mini dish is intended to be installed:

Please enclose with your application form a photograph of the whole elevation of the structure where the dish will be fixed, and a photograph of the surrounding area which the dish will overlook.

How high above ground level will the dish be fixed? (in metric)

Please tick the following boxes as appropriate:

		Please Tick	
		YES	NO
(a) Will the mini dish be seen from:			
	(i) public roadway	<input type="checkbox"/>	<input type="checkbox"/>
	(ii) private roadway	<input type="checkbox"/>	<input type="checkbox"/>
	(iii) adjoining properties	<input type="checkbox"/>	<input type="checkbox"/>
	(iv) adjoining gardens	<input type="checkbox"/>	<input type="checkbox"/>
(b) Have your adjoining neighbours erected a dish?			
		<input type="checkbox"/>	<input type="checkbox"/>
(c) Will an installer be used who is familiar with the Trust's policy?			
		<input type="checkbox"/>	<input type="checkbox"/>
(d) Is the property Listed?			
		<input type="checkbox"/>	<input type="checkbox"/>
(e) Is the property in a Conservation Area?			
		<input type="checkbox"/>	<input type="checkbox"/>
(f) Has the property already got an external aerial?			
		<input type="checkbox"/>	<input type="checkbox"/>
