

Lawley and Overdale Parish Council update 4th March 2008

- We are about to occupy the Persimmon Portacabin so if you see people around the site please come and speak to us.
- I am now blocking my diary on a Thursday to be dedicated to **IMS** I will therefore be on site at Lawley every Thursday. We will have IT services on site but please feel free to visit me at the Portacabin
- Once established I plan to have an afternoon residents surgery with an open door policy similar to the Birse arrangement. I will be advertising these on local notice boards and through the media.
- We appreciate the recent site visit by PC members to Lightmoor and can advise that the stewardship brochure for Lawley will be ready soon and will be distributed to you all. We have taken on board your comments and requests at that meeting, particularly in relation to the support for a Community Support Officer to patrol the new Lawley. Mr John MacNulty will progress this through the executive implementation team.
- Within the next two weeks you will gradually see more management team presence on site. Some of you may have already seen Mark McPherson- Meads around the village. Mark is a Tenancy Services Officer working for the partnership and has been out and about particularly visiting new residents and noting issues of concern.

Anyone who needs to contact me directly can do so either on telephone 01952 504390 or by e-mail kathleenhughes@bvt.org.uk
