

The panel were impressed by Laura's skill and commitment. Work behind the scenes at times such as these is easily missed and could go unrecognised. However, such an enormous contribution over an extended period makes everything else work for so many people. Much appreciation is due to Laura.

From the nomination:

I would like to nominate Laura Stone as a Bournville Star.

She should certainly be rewarded for doing an excellent job, expertly managing the Food Parcel depot at the Bournville Hub over several weeks from the beginning of June until mid-July.

This was an unprecedented and complex responsibility which Laura, working behind the scenes, carried so successfully. So many people were helped and reassured by virtue of her efforts which they would not even see.
